ABSTRACT

Training on the use of natural ingredients for facial care for PKK women which was carried out in the community, especially PKK women in Dukuh Gunung Gempal, Giripeni Subdistrict, Wates aims to:1) increase knowledge in the use of natural ingredients for facial care, 2) increase skills in the use of natural ingredients for facial care 3) provide inspiration and motivation from the skills you have for daily facial care using natural ingredients. With facial care training, it is hoped that PKK mothers will be motivated to care for and maintain healthy facial skin so that their faces avoid black spots, dry faces, acne, premature aging and dull faces.
