

CLASS ACTION RESEARCH TRAINING FOR MGMP IPS TEACHERS IN YOGYAKARTA

by Dr. Saliman, M.Pd, Agustina Tri Wijayanti, M.Pd, Yumi Hartati, M.Pd, Tia Nur Khafifah, Umi Nuraingini

ABSTRACT

ABSTRACT

Professional competence is the ability needed in order to realize a professional teacher. Professional competence includes expertise or expertise in their field, namely mastery of the material they teach and their methods, a sense of responsibility for their duties and a sense of togetherness with other teacher colleagues. In fact, there are still some unscrupulous teachers, principals and school supervisors who deliberately create false data for determining credit scores so that they are threatened with being demoted because they are hampered in making scientific articles. Teachers should be able to develop CAR proposals to improve learning and professionalism. However, in its implementation, teachers face many obstacles in writing CAR proposals. From the observation, it was found that the majority of teachers in Yogyakarta had difficulty in dividing teaching and research time, lack of experience and references. In addition, based on initial observations there are still many teachers who do not understand about writing scientific papers and lack of awareness of the importance of writing scientific papers and lack of commitment. The method of activity chosen for the implementation of the PTK proposal writing training service for Social Sciences MGMP teachers in Yogyakarta through online is a combination method of tutorials or lectures, discussions or questions and answers and independent practice and groups accompanied by resource persons from the service team through non-face-to-face online. Based on the results of the implementation of the CAR preparation training for MGMP social studies teachers in Yogyakarta made online by all PPM participants, the participants were very enthusiastic and happy to take part in the CAR training. The teacher is very enthusiastic to show and present and immediately get direct explanation feedback from the resource person. So it can be concluded that the PPM participants have understood the material presented by the Service Team.
