ABSTRACT

This PPM activity aims to equip the younger generation of Kapanewon Pengasih in terms of vehicle maintenance skills / car tune-ups and to foster an entrepreneurial spirit for the younger generation of Kapanewon Pengasih with regard to light car maintenance.

The target of this program is the younger generation who are members of the Community Pathway Information and Youth Counseling Center (PIR-R) group consisting of 4 groups in Kapanewon Pengasih, Kulonprogo Regency.

The result of this PPM activity is that the young generation of PIR-R has initial knowledge and skills about workshop equipment, occupational health and safety, light vehicle systems and car maintenance / tune-up. Motivation for further learning was also evident from the training participants based on positive responses from the training evaluations completed by each participant.
