

Evaluation of Learning Infrastructure at Yogyakarta State University, Karangmalang Campus

by Retna Hidayah, Sativa, Novia Suryadwanti, Dewi Prathita Rachmi

ABSTRACT

This research generally aims to evaluate the adequacy of learning infrastructure at UNY Karangmalang campus with the following specific objectives: 1) to evaluate learning facilities and infrastructure at FT UNY with special cases at DPTSP FT UNY; 2) conduct a user satisfaction survey of learning infrastructure. Data was obtained through various data collection methods including measurement, observation, and the use of secondary data, as well as distributing user satisfaction questionnaires to students. Data were analyzed descriptively qualitatively. The results of the study get an overview of the condition of the adequacy of infrastructure and user satisfaction which can be used as a database for developing strategies for planning, managing, and using learning infrastructure at the UNY Karangmalang campus.

Kata Kunci: *learning infrastructure, adequacy, user satisfaction*
