

TRAINING DEVELOPMENT OF TEACHING MATERIALS FOR TEACHERS OF HIGH SCHOOL IN BANTUL DISTRICT

by Dr. Dyah Kumalasari

ABSTRACT

The results of Dr. Dyah Kumalasari, M.Pd regarding "developing historical teaching materials with nuances of character education in high school" in 2016 with Dikti funding, obtained results that character-based teaching materials were effective in improving student character and achievement. For these achievements, it will be more beneficial if the results of the research are applied in PPM activities. This community service activity aims to motivate teachers in the implementation of the development of teaching materials, improve understanding, ability, and practice technically about the development of teaching materials which include: (1) Motivating (building willingness) to increase understanding and competence in developing teaching materials (2) Understanding and competency of teachers in exploring real and problematic problems in classroom learning, Understanding and competency of teachers in designing, modeling and developing teaching materials, (3) improving skills in implementing development of teaching materials. The skills in question include: skills in preparing teaching materials, skills in carrying out the development of teaching materials, skills in presenting the results of the development of teaching materials. The target of this activity is for high school teachers in those who have the willingness and ability to be trained in developing teaching materials in the form of modules and the targeting of training has rational-strategic considerations, efforts to improve teacher quality about developing teaching materials through training on teaching instructional materials High school in Bantul Regency and taken 25 teachers, training will be held 2 days or at least 16 hours of meeting.

The method used in community service activities is counseling or refresher lectures, question and answer, example cases, simulations. Teachers are asked to find the most important cases related to the development of teaching materials. After that, they were asked to explore the individual problems faced in the process of developing the most urgent teaching material. Implementation of teaching material development training activities held for two days on Thursday and Friday August 23 and 24 2018 took place smoothly and satisfactorily. In general, all participants participated in activities with high motivation and earnest. This is evident in their regular attendance for two days and following each session with great attention and enthusiasm. The first day of the training activities was filled with lectures and questions and answers about concepts and motivation in the training activities for developing teaching materials for teachers in high school. The second day of the activity took the form of training in improving skills in implementing the development of teaching materials in the form of modules. The skills included include: skills in preparing teaching materials, skills in carrying out the development of teaching materials in the form of skills modules in presenting the results of the development of teaching materials, feedback & revisions to the development of teaching materials made by participants. Guidance and consultation are served by the community service team. On the second day the participants collected products in the form of teaching materials in the form of modules.
