

121/5000 EFFORTS TO IMPROVE STUDENT LEARNING ACHIEVEMENTS STUDY PROGRAM STUDIES MUSIC ARTS THROUGH AUDIO LEARNING MEDIA

by Dr. Hanna Sri nMudjilah, M.Pd

ABSTRACT

The purpose of this study is to improve student learning performance by using audio media in music learning especially Vocal 1. This research uses a PTK approach that provides treatment to students by way of maintenance in the form of AUDIO media is demgan listen continuously to achieve the desired skills. This treatment is carried out during the data taking as much as 3 sessions in the early stages as the first stage, in cycle 1, and cycle 2, with the following results: Cycle 1 with a value of 906 or 69.69% and 850 or as much as 70.83% the maximum is still not maximal. The end result of cycle 2 is 1036 or 79.69% already obtained. The result of this function is enough to make students become confident with the results. This is the result of skill improvement found from the first cycle and the second cycle.
