ABSTRACT

Archery is a sport that has its own characteristics in its class. Kampung Emas or the "UNY Build a Village" program is village development, both human resources and rural natural resources, which is fostered by UNY so that it becomes one of the developed villages and can prosper its community. One of the Golden Villages that is being developed is Krapyak IX Hamlet, Margoagung, Seyegan, Sleman. Objective: This community service (PkM) activity is held with the aim of (1) Bringing closer the relationship between lecturers as community service members and the general public; (2) Collaboration between FIKK and tourist villages together has the aim of finding athletes who will be useful in the future; and (3) To introduce the public more closely to the fact that FIKK-UNY has a forum for developing archery sports. Method: The form of activity in socializing the sport of archery uses a direct approach, demonstration, discussion, practice and evaluation of children's absorption in participating in the sport of archery with good archery techniques. The material contains presentations of discussion papers and practice in the field.
