

INQUIRY LEARNING MODEL TRAINING ASSISTED KIT SEQIP FOR SCHOOL TEACHERS BASED ON KECAMATAN MANDING BANTUL DISTRICT

by Rahayu Dwisiwi Sri Retnowati, M.Pd.

ABSTRACT

The PPM activity aims to (1) Improve the background of teacher knowledge of SD Manding Bantul to learning models mandated by Curriculum 2013, (2) Improve the skills of SD Manding Elementary teachers in applying the inquiry learning model assisted by the SEQIP kit, (3) Improve teacher skills in compiling the LKPD based on the inquiry model.

The implementation of the training uses lectures, experiments, discussions, and assignments. Participants numbered 12 elementary school teachers in grades 4 and 5 who were in cluster 4 of the Bantul Regional Office. The training activity was held on Saturday, October 27, 2018 at SD Manding Tengah. Evaluation of the results of the activities including increased knowledge, skills improvement, and increased motivation were revealed by tests and observations and the evaluation of the training process was revealed through a questionnaire.

The results of the activity showed that the cognitive aspects, skills aspects, and affective aspects of the trainees were in good categories. The results of the evaluation of the implementation of training activities are also good.
