ABSTRACT

ABSTRACT

This community service program aims to improve the skills and ability to read aloud of the preschool teachers within Putra Mulya Preschool Teacher Association. The method applied in this program comprised having speech and discussion, presenting reading aloud models, conducting training, and having evaluation of the program. The target of this community service program was 30 preschool teachers who are the members of Putra Mulya Association located in Mulyodadi Village, Bambanglipuro, Bantul, Special Region of Yogyakarta. A series of action was performed in this program starting from observation in February until evaluation in August 2023. After the program was accomplished, it can be inferred that the community service program was well conducted, which was seen from the participants' full attendance, their activeness and enthusiasm, as well as positive feedback they gave in the evaluation of the program.
