

Daily Activity Plan Development Training (RKH) for kindergarten teachers In Order to Improve the Quality of PAUD Learning

by IKA BUDI MARYATUN, M.Pd; MUTHMAINAH, M.Pd; NUR HAYATI, M.Pd

ABSTRACT

This training aims to improve the knowledge and skills of kindergarten teachers in developing RKH relevant, creative and meaningful based Permendiknas 58. intended target audience for this training are kindergarten teachers in Jetis Bantul area totaling 30 teachers. The activities carried out in the form of lectures, discussions, and workshops. Through this training, kindergarten teacher is able to develop in proportion to the developmental aspects of developing a fifth aspect in one day or one RKH. In addition there is relevance between Achievement Level Development (TPP), indicator and learning activities. The speakers or instructors encourage teachers to creatively design the types of activities that are meaningful and contextual teaching emphasis on learning (CTL). Based on the evaluation results RKH teacher preparation, it can be concluded that 80% of kindergarten teachers (24 teachers) can arrange RKH with both categories.
