## **ABSTRACT**

This study aims to describe the appropriateness and effectiveness of the materials on the textbook *Focus on Grammar 5* for the learning of Advanced Communicative Grammar Skill. This was an evaluation study. The data were collected by literature review and questionnaires. The quantitative data were analyzed by the descriptive technique and the qualitative data by the interactive technique by Miles, Huberman, and Saldana (2014). The results of the textbook evaluation by the students are as follows. (1) The physical aspect of the textbook is fairly good with a mean of 3.28. (2) The organizational and structure aspect of the textbook is fairly good with a mean of 3.54. (3) The content/materials aspect of the textbook is fairly good for learning with a mean of 3.47. (4) The task/evaluation/exercise aspect of the textbook is fairly good with a mean of 3.34. (5) The overall aspect of the textbook is fairly good with a mean of 3.55. The results of the evaluation by the lecturer show that the textbook as a whole is good.
