

# IMPROVING THE QUALITY OF ONLINE LEARNING THROUGH IT-BASED MEDIA DEVELOPMENT WORKSHOP

by Totok Sukardiyono, Herman Dwi Surjono, Indra Hidayatulloh, Sigit Pambudi, Angki Pranamukti, Erlangga Baihaqi

## ABSTRACT

This PPM activity aims to improve the knowledge and skills of SMP Negeri 2 Pakem teachers in making bold learning media through schools. Through the habit of using and learning media in the classroom, it is hoped that teachers will be skilled in carrying out learning practices in the classroom, so that better learning is obtained from time to time.

The methods used in service activities are lecture, demonstration, question and answer, discussion and assignment methods. Lecture method to convey concepts and problems of bold learning in schools. Demonstration method to demonstrate ways and steps to make learning media boldly. Question and answer method to ask and answer the problems experienced in the classroom and school in bold learning. The discussion method is to discuss the learning media that have been used and will be used. While the assignment method is to provide practice opportunities for participants to practice starting from planning, creating, and applying learning media in class.

The results of the training showed that there was an increase in the knowledge and skills of SMP N 2 Sleman teachers in using bold learning media in the classroom. The training has high effectiveness and efficiency because this training material is really needed by teachers. This is indicated by the number of participants who exceeded the planned target of 26 participants and as many as 29 participants.
