

# **WORKSHOP ON IMPROVING OF SCIENCE TEACHER PROFESSIONALISM IN DIY THROUGH INTRODUCING AND AFFILIATE OF THE ASSOCIATION OF INDONESIA SCIENCE LECTURER (PPII)**

**by Al. Maryanto, Sabar Nurohman, Widodo Setiyo Wibowo**

## **ABSTRACT**

This society community program aims to present information about The Association of Indonesia Science Lecturer (namely, PPII) in DIY completely, to improve the teachers' awareness about the essential of being member of PPII in DIY, to enhance the motivation and contribution of science teachers in the improvement of science teachers' professionalism, and to thrust the establishment of PPII DIY that is involved by all of science teachers in DIY. This activity is conducted and combined with MGMP agendas in Kota Yogyakarta, SMPN 1 Kota Yogyakarta as a host. This program is completed through discussion forum about the historical of PPII, the legal formal that supports this association (AD/ART), some activities done by PPII and sign on PPII as a member. About 33 participants are involved in this program. Findings show that all science teachers well known about PPII, they have a good of awareness about the essential of being member of PPII, therefore their motivation and contribution are increased. They have a good mind set to do some activities in order to improve the professionalism of science teacher, and expect that the existence of PPII DIY will be generated and involved the representative of science teacher in DIY.
