

PENGARUH ZUIKER ONDERNEMING PADA PERUBAHAN SOSIAL DI KABUPATEN KLATEN 1870-1942

by Mudji Hartono, M.Hum., Ririn Darini, M.Hum., Dyah Ayu Anggraeni Ikaningtyas, MA.

ABSTRACT

ABSTRACT

This study aims to reveal the social changes that have occurred in Klaten Regency due to the development of *zuiker onderneming* or sugar companies in the Klaten countryside. Some of the problems that wanted to be answered were the background of the Klaten Regency area, the identification of the *zuiker onderneming* in Klaten Regency, and the influence of the emergence of the *zuiker onderneming* for the development of the area regarding the physical facilities and life of the local community.

The research method used is the historical method. This method includes four steps. First, heuristic or looking for sources related to research. Second, source verification or criticism which includes external criticism and internal criticism. Third, interpretation or interpretation of existing historical facts. Finally, historiography or historical writing.

Kata Kunci: *Keywords: zuiker onderneming, Klaten*
