## **ABSTRACT**

Community Service Activities (PPM) in the form of "Training Training on The Use of Concept Board Platform for Media Classical Guidance Services for Teachers of BK SMA Yogyakarta City" is an activity to provide training for high school level guidance and counseling teachers in Yogyakarta City in the form of *the use of concepboard platforms* to increase media use options in conducting classical guidance. The purpose of this activity is 1) providing alternative online media that can be used by BK SMA teachers in carrying out classical guidance services during the covid-19 2 pandemic) providing training for BK SMA teachers conceptboad platform as an alternative media classical guidance service online 3) helps improve the efficiency of classical guidance services through enthusiasm and student liveliness. Training activities use self-assignment techniques that begin with seminars and discussions on interests, preparation of interest service plans, service service practices. The measuring tool used to determine the effectiveness of the technique is a scale assessment of the use of concept *boards* used by pretes and post tests. The results of the implementation of the activity showed an improvement seen from the average pre-test score of 55.6 and the average post test score of 70.6. Based on this, this community service activity has succeeded in achieving the goal.
