

TEACHERS TRAINING IN PREPARATION OF PRIVATE VOCATIONAL SCHOOL OF SCIENCE STUDENTS IN BANJARNEGARA DISTRICT

by Supardi, Sudrajat, Yuhanida Milhani

ABSTRACT

Based on the report and discussion above, it can be concluded that, efforts to improve the ability of IPS MGMP teachers in Banjarnegara in developing social studies learning models using the local wisdom-based scientific approach using student worksheets with workshop training strategies and individual assignments. Capacity building is based on the initial potential test results of the workshop participants. In general, participants have the ability to integrate local knowledge in social studies learning tools.

In addition to the above conclusions, PPM also produced several important things related to the development of competencies in social studies teachers in Banjarnegara. The social studies learning training held by the Department of Education is still very minimal as an effort to develop social studies teacher teaching skills. The PPM training program for developing IPS worksheet teaching materials helps teachers to develop teaching materials according to the rules for teaching teaching materials

Kata Kunci: *LEARNING OF SOCIAL SCIENCES EDUCATION, student worksheet*
