

Training on Making Higher Order Thinking Skills for Elementary School Teachers

by Sri Rochadi, Purwono, Dwi Yunairifi, Yopy Wahyu Purnomo, Irfan Wahyu Prananto.

ABSTRACT

Community service activities are carried out based on the needs of the target group. The purpose of carrying out this activity is to understand the concept of learning based on higher order of thinking skills (HOTS), to be able to arrange problems / questions based on higher order of thinking skills (HOTS). This PPM was attended by elementary school teachers in the Yogyakarta City Education Office. Participants totaled 30 people. The methods used are lectures, questions and answers, discussions, and assignments. This activity was carried out for 2 days. The activity stages include (1) planning, (2) implementation, and (3) evaluation and follow-up. Based on the assessment of the products produced by participants, it can be stated that the ability of participants to compile problems / questions based on higher order of thinking skills (HOTS) in learning in the form of worksheets / questions on the lesson plan shows good results and is in accordance with HOTS criteria.
