

# **DEVELOPMENT OF BLENDED LEARNING LEARNING MODEL TO IMPROVE STUDENT CREATIVITY IN FAMILY EDUCATION**

**by Puji Yanti Fauziah**

## **ABSTRACT**

Blended Learning is a lecture consisting of 50% of online meetings and 50% of off line meetings. The purpose of this lecture is to increase students' learning independence and creativity through field lectures. The lecture method uses inquiry learning, where students find ideas from the field, through searching and then creating learning solutions such as the assignment section in a course. Learning Outcomes Blended Learning is a guiding concept that IPR will register at LPPM UNY. The resulting learning guide is a guide for childcare in Lombok NTB in Sasak tribe. Entrepreneurship learning guide, online Indonesian Language Learning Guide, Creativity Learning Guide through Kokuru Paper Media.

Kata Kunci: *Blended learning, creativity*
