ABSTRACT

The community service activity is mentoring fine arts learning to make mural art at SMP N 2 Mlati, Sleman, Yogyakarta in class VIII which aims to 1) introducing students to knowledge of materials, tools and how to create mural art, 2) creating mural art gives experience and creative skills to students including the process and technique, 3) creating mural art teaches collaboration to complete a mural project on the class wall, 4) the meaning contained in environmental-themed murals can provide education to students. The activity is carried out in 3 main activity stages including the pre-implementation stage of the service, namely the stage of preparing learning tools and materials for creating mural art. The implementation stage of the activity is the process of creating the mural art for 3 meetings. The pre-implementation stages of service are the evaluation and follow-up stages. The activity of creating mural art can be an alternative art learning activity in developing students' creativity.
