### **ABSTRACT**

The purpose of this activity is to provide a understanding and implementation of Baseball5 games for coaches of baseball and softball achievement development within Daerah Istimewa Yogyakarta. So the participants will be able to develop Baseball5 games in their respective districts/cities.

The target of participants are 32 trainers/managers from four Regency/City Governments (each sending 8 people) under the auspices of PERBASASI in the Daerah Istimewa Yogyakarta. The method of activities carried out is through lectures, discussions, and practices, for two days. The evaluation of implementation of activities using the average increase in the results of the pre-test and post-test of the participants for the product, as well as the observation sheet for the process. The test contains material on the rules of the game, making the playing field, leading as an umpire, taking notes as a table clerk, and playing as a player and coach in the game of Baseball5.

The results of the PPM activities are as follows: (1) the results of the evaluation process are that the PPM participants get satisfaction, conformity with the needs, the PPM participants are enthusiastic and the participants understand about the Baseball game5, (2) the results of the product evaluation are an increase in the average post-test results of 84.65 from the pre-test of 62.25. So it can be concluded that this PPM legitimation can equip the coaches of baseball-softball achievement development about the game of Baseball5. The final result of this activity is an understanding of the coach/manager in organizing the Baseball game5 in the respective district/city environment.
