### ABSTRACT

Community Service Activities (PPM) regarding Training on the Use of Zoom Cloud Meeting as an Alternative to Distance Learning for Teachers of SMK Negeri 1 Depok Yogyakarta were conducted on-line. This activity was carried out by the PPM Team consisting of lecturers in the Department of Clothing Engineering Education, FT UNY with the aim of providing knowledge and skills to teachers of SMK Negeri 1 Depok in: a) preparing material content for the implementation of learning with Zoom Cloud Meeting, b) create classes on learning with Zoom Cloud Meeting, c) fill in some content in the Zoom Cloud Meeting feature, d) access learning through Zoom Cloud Meeting.

Training activities are carried out for three days with an allocation of 30 hours of meeting. The training materials include theory and practice which include: a) Theory of basic concepts of Internet-Based Learning, b) Introduction to the Zoom Cloud Meeting Application, c) Preparing Material Content for learning with Zoom Cloud Meeting, d) How to Make Classes on Learning with Zoom Cloud Meeting, e) Guided Practice Learning Implementation with Zoom Cloud Meeting. This training activity was attended by 18 vocational teachers from various subjects. The training methods used were lectures, discussions, question and answer, demonstrations, and guided hands-on practice.

The results of PPM activities are that participants are able to: a) prepare material content for the implementation of learning with Zoom Cloud Meeting, b) take steps to create a class at Zoom Cloud Meeting, c) fill in some content in the Zoom Cloud Meeting feature, d) access learning with Zoom Cloud Meeting. This is indicated by 17 participants (94%) who have collected evidence of the implementation of learning using Zoom Cloud Meeting on one subject matter being taught. Meanwhile, the successful implementation of PPM activities was in the Good category with an average score of 3.92.
