

# **SOCIALIZATION OF CYBER BULLYING PREVENTION AND THE IMPACT OF THE USE OF TECHNOLOGY IN ADOLESCENT JUNIOR HIGH SCHOOL STUDENTS 1 WONOGIRI**

**by Setiati Widiastuti, etc**

## **ABSTRACT**

The purpose of this community service activity is a) to improve knowledge, understanding and passion about cyberbullying phenomenon in terms of occurrence, prevention and countermeasures of cyberbullying; b) Improve knowledge, understanding and passion of cyberbullying in terms of ITE LAW; c) Improve knowledge, understanding and passion of cyberbullying in terms of the child protection ACT on students of Junior high School in SMP Negeri 1 Wonogiri Yogyakarta, D) improve knowledge, understanding and passion about The impact of technology for high school students.

The community service activities are conducted by lecture, question and answer, discussion and identifying problems related to cyberbullying and problem solving. PPM Target is the first high school students are all students of SMP Negeri 1 Wonogiri Central Java A number of 30 participants. This PPM is held on Wednesday and Thursday, June 19, 2019-20 June 2019, in junior High School hall I Wonogiri. Activities on the first day: the first session is filled with material giving about the phenomenon of Cyberbullying in terms of occurrence, prevention and ways of its introduction, understanding Cyberbullying in terms of ITE LAW, then understanding Cyberbullying in terms of LAW Child protection and the last material about knowledge on Cyber bullying and the manner of prevention of violence among adolescents. The material is conveyed by a lecture and question and answer method. The activities of both students are given a task to identify cases then followed by a discussion, so that the participants have the ability to solve problems related to the phenomenon of cyberbullying and how to Against cyberbullying in terms of the ITE ACT and the child protection ACT among students. Second material is conveyed by the method of discussion and resolution of the case identification. Activities on the second day; To create scenarios about the prevention of violence in cyberspace sent by email.

This devotion activity can be said to be carried out well and smoothly, but there are still some limitations in its implementation. SMP students as participants of socialization are less enthusiastic and not very excited in following the sessions, both material exposure activities, questions and answers and discussions. In addition, from the results of exposure and discussion of participants on the simulated cases shows there is an increase in the level of knowledge and understanding of participants on this material.
