

SPECIAL EDUCATION TEACHERS' COMPETENCIES DEVELOPMENT IN FORMULATING STUDENT'S LEARNING TEST

by Ishartiwi, Nur Azizah, N.Praptiningrum, Rochmat Wahab

ABSTRACT

The community service activities include workshops and coaching on formulating learning test for special needs students. The participants was 30 special education teachers from 6 special schools in Yogyakarta. It was held in SLBN 1 Bantul on 10 September 2016 and 24 September 2016. The goals of the activities were to develop teachers' knowledge and skills in (1) concept of students with special needs (2) form of evaluation (3) type of learning evaluation (4) learning evaluation analysis (5) Follow up program, and (6) formulating evaluation instrument.

The result of the community service program showed that there was increase in participants' knowledge and skills in developing learning test for students with special needs. The participants requested for similar program on different topic. Hasil PPM menunjukkan bahwa terjadi peningkatan aspek sikap, pengetahuan dan keterampilan peserta dalam menyusun penilaian hasil belajar. Peningkatan sikap ditunjukkan dengan saran dan permintaan peserta untuk mengadakan kegiatan serupa. Their improved knowledge and skills demonstrated by correct results of assessment rubrics that were arranged in groups.
