## ABSTRACT

This research –based Community Service Program is adapted from research result of “*Educative Show and Tell: Developing Empathy, Affiliating Conflict- Resolution, and Positive Habit of AUD in 2010*”. The adaptation was done on subjects and integrated topic by talking about complex procedure. The adaptation was done because in the field, especially in Vocational High Schools, this topic is badly needed. The objective of this program is to give training about developing instrument for speaking complex procedure text for Indonesian and English Teachers of Vocational High Schools in Sleman Regency based on *show and tell*.

The participants of this program were language teachers (both Indonesian and English teachers) in Vocational High Schools in Sleman Regency. The participants were selected by a team of MGMP of languages. The agreed participants were 20 teachers. The program was conducted in 24 hours on August 12th, 16th, and 19th, 2016. The methods used were lecturing, discussion, demonstration, assignment, practice, and implementation.

The results of this program are as follow: (a) the participants understand the concept of complex procedure based on show and tell, (b) the participants are able to develop instrument to assess complex procedure based on show and tell, (c) the participant are able to make complex procedure texts from developing instrument and to demonstrate speaking complex procedure text based on show and tell in front of their peers.

Kata Kunci: *speaking instrument, complex procedure, show and tell*
