ABSTRACT

The implementation of this community service activity is motivated by the importance of refreshing and improving the competence of teachers in writing scientific works. Writing scientific works is an integral part of the world of education at various levels. Teachers as educators need to develop the ability to write scientific works. This community service activity is implemented with the aim of (1) refreshing scientific writing material for SMAN N 1 Seyegan teachers, (2) Improving the competence of teachers at SMAN 1 Seyegan in writing scientific works and publishing them through various scientific publication platforms. The target audience of this activity is SMAN 1 Seyegan teachers

The purpose of this activity is to improve the competence of teachers who work as educators. The specific purpose of this activity is as follows: (1) To improve teachers' understanding through refreshing the material of writing scientific works (2) To improve the ability of teachers to implement the writing of scientific works and publish them through various scientific publications. This activity is implemented in a blended workshop format with a duration of 30 hours. The training activity was organized at SMA N 1 Seyegan with a time span of May-August 2022. The results obtained from this activity are as follows: (1) refreshing the writing of scientific papers through the presentation of materials and assistance in a blended mode. (2) increasing the ability to publish scientific papers in the SINTA journal. In general, the main achievement of this training activity is that the teachers of SMAN 1 Seyegan obtained refreshment, improvement, and renewal, of various knowledge, and skills in writing scientific works. Furthermore, this activity is expected to encourage SMA N 1 Seyegan teachers to improve their writing competence.
