

Training and Learning 21st Century

by Fathurrohman, Wuri Wuryandani, Suparlan, Kus Edi Sartono, Hendra Prasetyo

ABSTRACT

The era of globalization is characterized by the complexity and phenomena of dynamic changes in line with the times. These changes and developments occur in every aspect of human life, including in the world of education. It is necessary to carry out efforts to improve the quality of education in the form of 21st century learning and learning training activities for elementary school teachers in Yogyakarta through the Community Service Program (PPM).

The methods that will be used in this PPM are 1) training and 2) mentoring. The training is conducted online through a zoom meeting device by inviting schools that have been appointed by the Yogyakarta City education office

The results of this PPM activity were held on July 4-10, 2020 through the online zoom meeting mode. Participants who attended were 30 people who were representatives of schools that had been appointed by the Yogyakarta City Education office. The presentation of the material was carried out with presentations and discussions related to the material presented. Pematari explains what learning is and how learning in the 21st century. Learning and learning materials are explained in detail from learning theory to how learning in the 21st century

Kata Kunci: *learning, 21st Century learning*
