ABSTRACT

This PPM activity has the aim of increasing the understanding of community members around the Kali Jetis Section, Jatinom District, Klaten Regency, Central Java about mapping tourist areas to empower local communities. The targets of community group activities that will be targeted for PPM activities in this case are: (1) village officials around the Kali Jetis section, (2) youth organizations and hamlet youth administrators in the village, (3) community leaders community and village religious leaders around the Kali Jetis section. This PPM activity carried out several approaches such as training and mentoring, field surveys, preliminary mapping, detailed mapping, re-mapping, data collection, data processing, and preparation of mapping reports. The follow-up to this PPM activity is the development of facilities and infrastructure in accordance with the results of the mapping of the Tourism Area in the Kali Jetis, Jatinom, Klaten and publications for the public on the tourist area. Based on the results and discussion of the implementation of mapping activities in the Kali Jetis Section, Jatinom District, Klaten Regency, Central Java, it can be concluded that overall PPM activities went well and received positive responses from community members and village officials. The residents were quite enthusiastic about the series of activities that the UNY PPM Team had designed. In addition, local residents are also directly involved in the construction of tourism facilities and infrastructure in the Kali Jetis section. The output of this mapping activity is the existing drawings and plans for the Tourism Area.
