

MAPPING OF TOURISM AREA IN KALI JETIS ROOM KELURAHAN JATINOM KECAMATAN JATINOM KABUPATEN KLATEN

by Sunar Rochmadi, Suparman, Ilham Marsudi, Satoto Endar Nayono, Nur Hidayat, Elviana

ABSTRACT

This PPM activity aims to increase the understanding of the community members around the Kali Jetis Section, Jatinom District, Klaten Regency, Central Java about mapping tourist areas to empower local communities. The targets of community group activities that will be targeted by PPM activities, in this case, are: (1) village officials around the Kali Jetis segment, (2) youth organizations and youth organizations and village youth administrators in the village, (3) leaders community and village religious leaders around the Kali Jetis segment. This PPM activity carried out several approaches such as training and mentoring, field surveys, preliminary mapping, detailed mapping, re-mapping, data collection, data processing, and preparation of mapping reports. The follow-up of this PPM activity is the development of facilities and infrastructure in accordance with the mapping results of the Tourism Area in the Kali Jetis, Jatinom, Klaten sections and public publications on these tourist areas. Based on the results and discussion of the implementation of mapping activities in the Kali Jetis Section, Jatinom District, Klaten Regency, Central Java, it can be concluded that overall PPM activities are going well and have received positive responses from community members and village officials. The residents are quite enthusiastic about a series of activities that have been designed by the PPM UNY Team. In addition, local residents are also directly involved in the construction of facilities and infrastructure for the tourist area on the Jetis River segment. The output of this mapping activity is an existing drawing and a planned tourist area.
