## **ABSTRACT**

Based on The Act Number 6 in the year of 2014 concerning Villages, The governments of village are required to manage finances and be accountable for them properly. According to this Act, article 71 paragraph (1), It is stated that Village Finance is the right and obligation of the village which can be valued in money and everything in the form of money and goods related to the implementation of the rights and obligations of the Village. In the vocational school curriculum, especially in curriculum of Accounting and Institutional Finance Department, there are new subjects, namely the practic of accounting for agency and government institution in which there is content ababout village funds accounting. Many teachers of Accounting and Institutional Finance Department, especially those who teach practic class of cccounting for agency and government institution, find difficulties and lack of reference sources of this subject. In addition, those who teach practic class of cccounting for agency and government institution want to get training of village funds accounting. The objectives of this PPM activity are: 1) Teachers of Accounting and Institutional Finance Department in Sleman District get an adequate understanding of village funds accounting, and can apply it in learning of the practic class of cccounting for agency and government institution, 2) Teachers of Accounting and Institutional Finance Department in Sleman District, especially those who teach practic class of cccounting for agency and government institution, obtain adequate references regarding village financial accounting. This PPM activity was carried out online on August 29, 2020 starting at 08.30 and ending at 15.00 WIB, with 39 participants. PPM activities included training and practicing using the lecture and discussion method. The results of PPM activities were: 1) PPM activities can run well and smoothly and the participants' assessment of the implementation of PPM is also very good; 2) Participants get great benefits because they gain new insights and knowledge about learning of village funds accounting; 3) Motivation and enthusiasm for participating during the training was very high because the responses given by the participants were very active during the training and mentoring process; 4) participants were happy and satisfied to the training and hope the training on learning of village funds accounting can continue to be carried out in the future and carried out in offline/luring platform.
