ABSTRACT

Community Service Activities (PPM) with the title "Blended Learning Training for Fine Arts Learning for Arts and Cultures Junior High School Teachers at Kulonprogo " aims to improve the ability of Cultural Arts teachers who are members of the Arts and Cultures MGMP at Kulonprogo Junior High School, Yogyakarta in managing digital-based learning both for theoretical learning and practical learning. The methods used in this PPM are tutorials on the use of media, mentoring, and presentation. The successful training can be seen from the evaluation results; the material provided is understandable. Participants agree that the presenter conveys the material clearly and communicatively. It provides increased knowledge and confidence of teachers in the teaching process. Almost all participants felt motivated and got lots of ideas after attending this training. Overall, all participants felt that they had benefited from this training.
