## ABSTRACT

### *Abstract*

*Teaching materials is an important part in the learning process, educators as implementing learning activities are expected to be able to prepare teaching materials that have a high order level of thinking analysis (high order thinking). This training aims to know the ability of the teacher in compiling teaching materials that have a high level of analysis of thinking. Based on the results of the training, educators can make appropriate decisions to determine the steps in preparing teaching materials using high-level analysis. Through teaching materials can provide motivation to students to perform better. Various techniques for the preparation of teaching materials can be done in a complementary (complementary) manner in accordance with the desired competencies. The method of activities carried out is training conducted through lectures, preparation of Social Studies Teaching Materials based on High Order Thinking (HOT). The activity was followed by a simulation of the preparation of IPS teaching materials based on High Order Thinking (HOT) which was guided by the PPM team of the Department of Social Studies, Faculty of Social Sciences, Yogyakarta State University. The implementation of the training in the framework of preparing teaching materials is carried out with several activities. The first activity regarding the provision of information related to the steps in the preparation of teaching materials, followed by the preparation of teaching materials with analysis of high-level thinking (HOT) by teachers who were members of the Social studies Subject MGMP forum in Magelang which was held in April 2019. Dedication activities in the form of training in the preparation of teaching materials that have a high level of thinking analysis (HOT) for Social Studies teachers in SMP throughout Magelang can run well. This activity is very useful in providing deeper knowledge and understanding on how to improve the quality of social studies learning through the preparation of teaching materials. This activity is also an encouragement for social studies teachers to convey information especially to other teachers about the important role of social studies teachers in preparing the learning process through the preparation of teaching materials with a high level of analysis (HOT).*
