## **ABSTRACT**

This community service activity aims to: raise awareness of the young generation, especially MAK UMMATAN WASATHON students, about the increasing threat of free sex, drugs, HIV AIDS, LGBT to their future; raise awareness to participate in realizing development; and increase their understanding and knowledge of the Adolescent Family Development program (BKR) through the GenRe program. The methods used are pre-test, lecture and question and answer, and post test. The results of the activity showed the high interest of the participants to gain more understanding and knowledge about the GenRe program. Several students are administrators, cadres and members who have been active in the Youth Information and Consultation Center (PIK) at the village level. Only they do not know that this activity is part of the BKR program. After the implementation of the activity, the participants' understanding and knowledge had increased. Several students who were not actively involved in this program expressed their willingness to participate in the GenRe program at the village level.
