by Amika Wardana, Grendi Hendrastomo, Nur Endah Januarti

ABSTRACT

PPM activities carried out under the title Tourism Potential Management Training for Travel Awareness Group in Hamlet Mangir, Sendangsari, Displays, Bantul, Yogyakarta. Benefits of activity is increasing the ability of tourism awareness in mapping the potential for tourism, increasing the ability of tourism awareness in the management of the tourism potential, cultivate the spirit and

creativity of the community. The target of the group is a member of the Tourism Village tourism awareness in Mangir.

The activities carried out between the months of June to October 2015 by some agenda. The training agenda in the form of Socialization, Training I (Social Analysis), Evaluation I (evaluation of potential mapping), Training II (Product Development), Evaluation II (product evaluation), report / results Products (Completion of the results of the training product). Of the activity was found that the group's ability tourism awareness in the management of tourism potential is still not evenly distributed this is due to members of diverse backgrounds. Requires intensive training program of an educational institution or training institutes so that the potential can be developed. Creativity and a spirit of community, especially the youth is so large that this as an opportunity that can be directed to community development process, especially in this case tourism.

The training activities in principle can run smoothly. Agenda Socialization, Training I (Social Analysis), Evaluation I (evaluation of potential mapping), Training II (Manufacturing Products), Evaluation II (product evaluation), report / results Products (Completion of the results of training products) able to provide positive effects associated with understanding of the management of its tourism potential. By observation, discussion, question and answer, lectures, presentations of practice and guidance, the range of knowledge and the material conveyed to the participants. After getting the materials participants have knowledge about the mapping of tourism potential, social analysis and has the potential product in the form of an educational tour.
