## **ABSTRACT**

This activity aims to introduce and explain the use of various safe additive substances in food to PKK cadres in Gatak IX, Sidoluhur, Godean.

This activity was held on Sunday, August 27, 2017 at the meeting PKK Gatak, Sidoluhur, Godean, Sleman with the number of participants 30 people. The team explained the various food additives commonly used in daily and allowed dosage. The team also made leaflets about additives on food.

Based on the results of the team evaluation and also the interviews of the participants, the participants' perceptions of these activities are very good. Participants also understand the various kinds of substances that are safe for health and how to properly use the material.
