## ABSTRACT

### ABSTRACT

The PPM activity with the title Private Angklung Playing Training with Angklung Choir Performances in Anti-Covid 19 Contagion Jars was attended by 16 PKK women from the Glondong cultural village. The results of this PPM activity are, first, producing an angklung choir arrangement with easy-to-read notation for private training. Second, produce a choral arrangement to be played together with a harmonic arrangement of sounds. Third, produce joint exercises but still in the corridor of health rules and use jars to be free from Covid 19 transmission. Fourth, produce videos of playing angklung choirs with anti-Covid 19 health standards with jars of choir angklung performances. Private training participants were very enthusiastic about participating in the activity, able to play angklung well, increasing discipline in practicing, working together and being aware of maintaining health protocols.
