

Workshop on "Model of Educative and Attractive Physical Activity Based on Traditional Children Games for Kindergarten Teachers in DIY"

by Wawan S. Suherman, Panggung Sutapa, Dapan, and Nur Rohmah Muktiani

ABSTRACT

The workshop on "Model of Educative and Attractive Physical Activity Based on Traditional Children Games for Kindergarten Teachers in DIY" is one of the activities of the faculty which aims to equip the ability of kindergarten teachers in the preparation of daily lesson plan using Majeda based on traditional children games.

The workshop was held for two days, June 13-14, 2015. Participants were 27 kindergarten teachers in Yogyakarta. All participants were present throughout the training. The training provided material to kindergarten teachers in the form of (1) Paradigms and Theory of Kindergarten Education, (2) Utilization of Traditional Children Games in Kindergarten Teaching-Learning, (3) Majeda-based Traditional Children Games, (4) Best Practices of Utilizing Majeda-based Traditional Children Games at TK Model, (5) Development of RPPH Majeda based on Children's Dolanan, and (6) Practice of preparing RPPH Majeda based on Children's Dolanan.

After gaining the knowledge and understanding of various things about Majeda-based Traditional Children Games that can be used in Kindergarten teaching-learning to optimally develop kindergarten students, the teachers practice the preparation of RPPH using Majeda-based Traditional Children Games, then they are assigned to compile RPPH independently. The results of the independent assignments are collected a week after the training ends.
