

# THE MEANING OF AQUATIC LEARNING IN ELEMENTARY SCHOOL FROM THE PERSPECTIVE OF A PHYSICAL EDUCATION TEACHER

by Nur Sita Utami, Subagyo, dan Hedi Ardiyanto Hermawan

## ABSTRACT

Swimming pools are affordable from schools, but not many Physical Education teachers have carried out aquatic learning before the pandemic. The purpose of the study was to reveal the meaning of aquatic learning in elementary schools from the perspective of physical education teachers—in-depth interviews with open-ended interviews. Although the interview was open-ended, the researcher used interview guidelines. The teacher interprets that the participants need aquatic learning. The teacher views that aquatic learning is essential given to students for life safety provisions.

Kata Kunci: *meaning, aquatic*
