

Preparation of Learning Document as Effort Employability (Employability Skill) SMK Graduates in Gunung Kidul Regency

by Pardjono, Soenarto, Putu Sudira, Moch. Bruri Triyono, Pipit Utami

ABSTRACT

Implementation of this activity is aimed for the compilation of RPP according to the reconstruction of subjects referring to the curriculum of 2013 and related candies and load employability skill according to the characteristics of related subjects. The PPM target audience is teachers in SMK N 1 Ngawen. This PPM activity is a training workshop that is pursued through the provision of materials related to the preparation of learning documents (theory) and guidance in the preparation of learning documents, especially RPP as the bill of assignment of participants who must be collected. Implementation of PPM successfully executed on Wednesday and Thursday, 23 and 24 August 2017 at SMKN 1 Ngawen. The workshop was attended by 25 participants consisting of teachers of Islamic Religious Education subjects, Civics Education, Indonesian, Javanese, English, BK, Sport, Cultural Arts, Entrepreneurship, Mathematics and Productive (TKJ, TB, TKR, TAB). In general there is increased competence on learning documents by participants. Participants are considered capable of preparing the lesson plan of the subjects that each teacher has.
