

DEVELOPMENT OF FUNCTIONAL ACADEMIC LEARNING STRATEGIES FOR TEACHERS IN SPECIAL SCHOOL MOVING SLEMAN DISTRICT SPECIAL REGION OF YOGYAKARTA

by Mumpuarti, et al

ABSTRACT

Community Service (PPM) aims to: 1. provide training and coaching for special teachers at Minggir Special School so that during the COVID-19 pandemic they can develop functional academic learning strategies for students to study at home. Providing assistance to Minggir SLB special teachers in carrying out functional academic learning innovations during the covid19 pandemic. Activity Methods: 1. Activity orientation is carried out with a joint zoom meeting between the service team and teachers; 2. Presentation of material by the service team to the teacher with presentations and questions and answers through zoom meetings; 3. Assistance in preparing teaching materials with a focus on 3M functional strategies; and 4. Implementation of the design of teaching materials taken by parents to be used to accompany their children's learning at home. The results of community service activities, namely the motivation of teachers to develop functional teaching materials in the form of modules. It is hoped that the module can be used for learning at home by students with parental assistance.
