ABSTRAK

The purpose of implementing this Community Service activity carried out is to provide training and assistance for Classroom Action Research (PTK) for teachers of SMK Islam Sudirman 2 Ambarawa, Semarang Regency, Central Java Province. This activity is carried out in 2 models, namely face-to-face (offline) and webinar (online) models with implementation using the lecture, question and answer method, direct practice of drafting titles, problems and draft proposals and technical assistance. From the results of the implementation of this training and mentoring, it can be concluded that 1) The implementation of training and mentoring can improve the skills of participants in understanding and compiling class action research proposals. 2) Classroom action research training has high effectiveness because teachers in the environment of SMK Islam Sudirman 2 Ambarawa teachers need training materials to improve their professionalism
