

# NATIONALISM EDUCATION MODEL FOR YOUNG GENERATION IN GLOBAL ERA

by Mukhamad Murdiono, Wuri Wuryanandani

## ABSTRACT

This study was aimed to describe the model of nationalism education for young generation in the global era developed in High School (SMA). This research was descriptive research using qualitative approach. Data collections were interviews, observation, and document analysis. The subjects of this study were the students and civic education teachers in Senior High School in Yogyakarta Special Region. Collected data were analysed inductively. The results show that the model of nationalism education for young generation developed in schools is done through activities intra and extra curricular. The activities in intra curricular are done by developing methods, media, student worksheets, and learning materials that contain the values of nationalism. While activities in extra curricular are done through activities that can develop the values of nationalism.
