ABSTRACT

SUMMARY OF PPM

IMPROVEMENT OF TEACHER COMPETENCE vocational Pangudi Luhur Muntilan WORKS BY CLASS ACTION RESEARCH

By
V. Lilik Hariyanto and Amat Jaedun

Objective PPM: (1) improve the quality of teaching graduate students of SMK Pangudi Luhur Muntilan, (2) increase the knowledge and skills of teachers of SMK Pangudi Luhur Muntilan in conducting action research (PTK).

Target: vocational teachers, Pangudi Luhur Muntilan, including teachers majors: (1) technical furniture, (2) engineering drawings of the building, (3) light vehicle engineering, (4) automotive engineering, (5) the teacher normative and (6) adaptive teacher.

Method of activities: (1) lectures to explain the theory, (2) self-guided exercises to proposal PTK, (3) assistance to the implementation process of PTK, to writing and reporting research results.

Results PPM, held on Friday, October 14, 2016 at the Aula SMK Pangudi Luhur Muntilan. Participants 20 teachers from the department: (1) technical furniture, (2) engineering drawings of the building, (3) light vehicle engineering, (4) automotive engineering, (5) the teacher normative and (6) adaptive teacher. Lecture time 2 hours, followed by a question and answer until the end of the allotted time. The task given by the headmaster to the teachers. Description of tasks assigned to teachers is to make proposals PTK which can then be implemented for classroom action research in the classroom.

Conclusion: (1) trainees still require similar training, (2) PPM program to increase knowledge and skills for teachers of SMK Pangudi Luhur Muntilan, (3) PPM program can be used to improve the quality of the learning process. Suggestion: (1) for trainees, provisions have been accepted can be developed further, (2) for the relevant local educational institutions, that teachers are encouraged and motivated and may even be opportunities to develop action research class at every opportunity, (3) for the FT UNY, will be improved and greater synergy.
