

PENCAK SILAT TRAINING FOR PHYSICAL EDUCATION MGMP TEACHERS YOGYAKARTA STATE SCHOOL

by Pasca Tri Kaloka, Sugeng Purwanto, Yuyun Ari Wibowo

ABSTRACT

Community Service aims to: (1) Improve the ability of teachers to know the basics of pencak silat, (2) Increase the willingness of teachers to write scientific works including: identifying, selecting topics and titles, collecting writing material, organizing and composing writing, (3) Increasing reference search capabilities in various sources to Physical Sports and Health Education teachers in Yogyakarta City.

This community service has a target that involves in the community service research activities, there are 25 Physical Education MGMP Teachers in Yogyakarta. Activities in the form of: Providing training Providing training in the basics of pencak silat to the MGMP physical education teachers at DIY City Senior High School as well as being a forum to help those teachers who want guidance in pencak silat learning.

The training on the basics of pencak silat training received good appreciation from the participants, especially by the High School Supervisor of Yogyakarta City. This is said because most of the Penjasorkes teachers in the city of Yogyakarta have not included pencak silat learning in learning material at school.
