

**BLENDED LEARNING IMPLEMENTATION COURSE “KAJIAN PERMASALAHAN PAUD” S2 EARLY CHILDHOOD EDUCATION PROGRAMS POST GRADUATE UNIVERSITAS NEGERI YOGYAKARTA**

**by Suparno**

**ABSTRACT**

The purpose of the implementation of the blended learning course in “Kajian Permasalahan PAUD” is to improve student competencies in understanding, identifying, analyzing and providing solutions to problems both academic and non academic. Among them include regulatory issues, resources, facilities and facilities, the learning process, learning substitution, and its evaluation model.

The lecture is held in a mixture of face-to-face and online. The results of the implementation of the lecture produced a developmental intervention youtube video product for students with special needs, and students were able to reflect to the cognitive level of evaluation and to create variously about various problems in early childhood education.
