ABSTRACT

Abstract

The aim of this community service were to train the SMK Diponegoro teachers to prepare action research proposal, to motivate to conduct action research in their classes, and preparing action research reports.

The community service was conducted in SMK Diponegoro. The activities consists of lecturing, discussion, resitation, and group mentoring. Lecturing and discussion were conducted in the begining of the session, while resitation and group mentoring were conducted in the next session.

At the end of the activity, only 20 % of the teachers are able to finish the proposal, while theother teacher still find difficulties in finding the problem that will be studied. Most teachers feel that they didn't have any problem in their classes
