## ABSTRACT

The purpose of this study was to determine the readiness of the lecturers of the Masters-Physical Education study program at the FIK UNY Elementary School to use learning media during the Covid-19 pandemic. This research is a quantitative descriptive study with a survey method. The population in this study were 14 lecturers of the PJSD FIK UNY Study Program. The data collection technique used in this study used a questionnaire with the Guttman Scale so that a firm answer was obtained "Yes" and "No" with a weighting score of "Yes" = one and "No" = 0. The data analysis technique used in this research is descriptive quantitative with the use of percentages. The results showed that 42.86% (6 lecturers) had high readiness, 42.86% (6 lecturers) were moderate, and 14.29% (2 lecturers) had low readiness. The analysis results show that lecturers' level of readiness in optimizing online learning media is in the high category. Lecturers ready to optimize online learning media have strong confidence, self-confidence, and high morale and can innovate online learning using various applications.
