

Writing scientific papers based on value education

by Fathurrohman, Wuri Wuryandani, Suparlan, Kus Edi Sartono

ABSTRACT

Considering the ability to write scientific papers is the first step in efforts to develop and improve the competence of teachers towards professional teachers, it is necessary to carry out efforts to improve the quality of education in the form of training activities in writing scientific papers based on value education for elementary school teachers in the Dukun Magelang district through Community Service Program (PPM).

The methods used in this PPM are 1) training and 2) mentoring. The training was conducted at the UPT office of the Dukun sub-district by inviting representatives of elementary school teachers in the dukun sub-district. The training material includes writing scientific papers, making writing based on values ??education, and how to enter articles in journals.

The results of this PPM activity are this Community Service in collaboration with UPT Dukun subdistrict, Magelang district with material for Writing Scientific Work, Writing value-based educational articles, Style of scientific articles in the environment. All participants were enthusiastic in participating in this training. The obstacle faced in this activity is the difficulty of finding a schedule that is in accordance with the work agenda that does not match the activities at school. So that the schedule for the implementation of PPM activities can only be carried out on August 9, 2019

Kata Kunci: *Scientific papers, value education*
