

MEDIA TRANSFER AND TRAINING ASSESSMENT OF THE STUDY OF JAVANESE MANUSCRIPTS COLLECTED BY DEWANTARA KIRTI GRIYA MUSEUM

by Endang Nurhayati, Mulyana, Venny Indria Ekowati

ABSTRACT

ABSTRACT

The PPM aims to: (1) Conduct training on the study of Javanese Manuscripts of Dewantara Kirti Griya Museum Collection, and (2) Conducting Media Transfer Manuscripts by using the camera to switch forms from conventional manuscripts written in paper to digital form.

This PPM partnered with Dewantara Kirti Griya Museum and carried out in three methods, namely: face to face, remote mentoring, and independent practice. Participants are netted through open recruitment. Face-to-face training is held on the 12th and 13th of July 2018. After that, participants must fulfill the training requisit, guided by the instructor. The tasks are: transcription, transliteration, translation, simple cataloging, and analysis plan. The training presented two speakers from the Dewantara Kirti Griya Museum and the Sonobudoyo Museum Yogyakarta. While other speakers are the PPM members.

For training activities, an indicator of success is the ongoing training with a minimum of 25 participants. This indicator has been reached, because the training was attended by 28 people. Training has also been carried out on an ongoing basis because participants have fulfilled the tasks set by the committee. For digitizing activities, the indicator of success is digitizing 50 pages of Dewantara Krti Griya's collection manuscript. The 150-page target is reached because each participant gets the task of digitizing 6 pages of text, so the total text is 180 pages. After the training and mentoring process, the participants have been able to make transcription, transliteration, translation, compile a simple catalog, make a script analysis plan, and be able to do a simple digitization process using a digital camera.
