ABSTRACT

The community service activity program with the title "Free Motorbike Service at the Student Family Association of Lombok Timur (IKPM) Dormitory in Yogyakarta" aims to 1) Carry out free service, especially at the Lombok Timur IKPM Dormitory in Yogyakarta, 2) Provide maintenance and repairing motorbikes for motorbike owners, especially at the Lombok Timur Student Family Association (IKPM) Dormitory in Yogyakarta.

This free service program is implemented by providing light service on motorbikes to the public. This free service is carried out by participants registering the motorbike with the administration section, the motorbike being serviced according to the request of the vehicle owner, after being serviced it is re-checked by a service advisor, and finally returned to the vehicle owner.

It is hoped that this activity program will be able to overcome the problem of damaged motor vehicles that have not been repaired resulting in breakdowns on the highway. This problem is often experienced by students because they do not carry out routine maintenance on their vehicles. This free service program will also provide an understanding of the importance of vehicle maintenance so that it is hoped that it will be able to reduce the problem of accidents in Yogyakarta caused by vehicles not operating properly on the road.
