ABSTRACT

Abstract

PPM Activities Learning Tools Training Workshop 2013 PAUD curriculum has been carried out in collaboration with Himpaudi in Banguntapan District, Bantul. The PPM activity was carried out in two activity sessions with the agenda of delivering the material in the first session and the workshop in the second session. The workshop was attended by 84 participants consisting of PAUD educators, Himpaudi daily administrators, and representatives of the Bantul District Education Office. The effectiveness of the implementation of PPM activities is measured using test techniques, namely pretest and posttest. Pretest analysis showed that there were 8 people (14%) in the high category, 41 people (72%) in the medium category, and 8 people (14%) in the low category. Posttest analysis showed that there were 8 people (14%) in the high category, 45 people (79%) in the medium category, and 4 people (7%) in the low category. From these results it can be concluded that there is no significant change from the implementation of the Learning Equipment Preparation Workshop for the 2013 PAUD Curriculum.
